PROFESSIONAL SUMMARY

BCA graduate (CGPA 8.92/10) focused on Java backend development, with hands-on experience building RESTful APIs using Java, Spring Boot, Hibernate/JPA, and SQL. Experienced in relational database design, business logic, transactions, and API testing, with projects involving end-to-end backend development. Strong foundation in OOP, DBMS, and data structures & algorithms, with 100+ LeetCode problems solved. Familiar with Git, Maven, JUnit, Mockito, and collaborative software development practices.

TECHNICAL SKILLS

Programming Languages: Java, Python, C
Backend & Frameworks: Spring, Spring Boot, Spring MVC, Hibernate, JPA, Spring Data JPA, JDBC, Servlets, REST APIs, Jersey
Database & DBMS: SQL, MySQL, PostgreSQL, Database Design, Joins & Subqueries, Transactions, Primary & Foreign Keys
Core CS Fundamentals: Object-Oriented Programming, Collections Framework, Exception Handling, Generics, Java 8 Features, Data Structures & Algorithms
Tools & Practices: Git, GitHub, Maven, Postman, IntelliJ IDEA, Visual Studio Code, Linux, Debugging
Testing: JUnit, Mockito
Cloud & DevOps: Docker, AWS, CI/CD

PROFESSIONAL EXPERIENCE

Mobile Application Developer Intern Feb 2026 – Apr 2026
Solident Technologies — Bengaluru, India (Hybrid)

- Contributed as a full-stack developer on the company's official website and MyWorkers, a cross-platform mobile application, building client features in Flutter and backend services in Node.js/Express
- Collaborated with the development team to translate requirements into working software, handling debugging, feature implementation, and backend integration
- Gained hands-on experience with production-oriented development workflows, version control, and cross-functional collaboration

PROJECTS

Smart Campus & Placement Platform
Java, Spring Boot, Hibernate/JPA, MySQL, REST API, Git

- Built a backend platform for managing students, companies, job postings, applications, and placement workflows end-to-end
- Designed relational database entities and relationships using JPA/Hibernate with MySQL, applying joins, keys, and transaction handling
- Developed RESTful APIs in Spring Boot across a layered controller-service-repository architecture, implementing business logic and validation
- Applied structured exception handling and debugging practices to improve reliability; version-controlled with Git via meaningful commits

Java REST API
Java, Jersey, REST API, Git

- Built RESTful APIs in Java using Jersey for managing application resources, with endpoints for retrieving and creating data via appropriate HTTP methods
- Implemented repository-based data operations using Java collections and OOP principles for request handling and response generation
- Tested and debugged API functionality using Postman; maintained the project through incremental Git commits

EDUCATION

Bachelor of Computer Applications (BCA), Computer Science 2023 – 2026
Dr. NSAM First Grade College (NITTE) — CGPA: 8.92 / 10

Pre-University Education (Class XII) 2022 – 2023
Ascent Pre University College — 95%

Secondary School (Class X), ICSE Board 2020 – 2021
Oxford Public School — 77.2%

CERTIFICATIONS

- Fundamentals of AWS Cloud Essentials — Amazon
- Android Application Developer — Meta
- Fundamentals of AI/ML — IBM

ACHIEVEMENTS

- Solved 100+ programming problems on LeetCode across data structures & algorithms
- Organized a Web Development Coding Contest during college
- Ranked among the Top 5 in class based on CGPA
